

US Companies Working on AI Agents in 2025

Compiled: 2025-09-22 19:03 UTC

Executive Summary

- We identified 36 US-headquartered companies building AI agents in 2025.
- Coverage spans 25 agent types across 28 industries/verticals.
- Data was gathered via specialized web-enabled subagents using `web_search`; utilized searches were saved via `save_used_web_search`.

Methodology

- Planned the research and saved the plan in the `deep_research_test` directory.
- Launched independent subagents covering eight task areas (A–H).
- Each subagent was instructed to use `web_search` and to log used searches with `save_used_web_search`; they returned normalized JSON.
- We merged outputs, deduplicated primarily by website domain, and filtered to US-headquartered companies.
- Finally, we synthesized results and organized them by agent type and industry.

Plan Compliance Verification

- Loaded the saved plan and validated we executed subagents A–H and performed merging/deduplication before reporting.

Subagent Contributions

- A — Landscape overview (general-purpose and platforms): 3 companies
- B — Developer/software engineering agents: 7 companies
- C — Customer support/contact center agents: 6 companies
- D — Sales/marketing/revops agents: 3 companies
- E — RPA/automation/digital workers agents: 5 companies
- F — Healthcare/biotech agents: 5 companies
- G — Voice/call agents: 5 companies
- H — E-commerce/ops/back-office agents: 5 companies

By Agent Type

- AI agent (2): Hippocratic AI, Nabla
- AI agent for operations (1): Amazon
- AI agents (3): IBM, ServiceNow, Workday
- AI Assistant (1): Suki AI
- AI platform (1): Ambience Healthcare
- AI procurement agents (1): Candex
- AI-augmented human agent assistance (1): Cresta
- Autonomous agents for supply chain (1): Inspectorio
- Collaboration (1): Microsoft
- Conversational AI and business process automation (1): Kore.ai
- Conversational IVR and multi-functional AI agents (1): Aisera
- Customer service chatbots and system agents (1): Forethought
- Customer support voice agents (1): Sierra
- Customer-facing and agentic AI roles (1): PolyAI
- Enterprise AI assistants (1): Moveworks
- General-purpose (1): OpenAI
- Programming (1): GitHub
- RPA (1): Automation Anywhere
- RPA and AI agents (1): UiPath
- Sales (3): Apollo, Lavender AI, Regie.ai
- Software Engineering Agent (6): Codeium, Cognition Labs, Cursor, Replit, Sourcegraph, Tabnine
- Voice Agents (2): ElevenLabs, Retell AI
- Voice AI (1): Infinitus AI
- Voice Assistants (1): Vapi
- Voice Models for IVR and agents (1): Rime

By Vertical/Industry

- AI and Digital Transformation (1): IBM
- Artificial Intelligence (1): OpenAI
- Automation (1): Automation Anywhere
- Automation and Process Optimization (1): UiPath
- Biotech (1): Nable
- Contact center automation (1): Aisera
- Contact centers (1): Cresta
- Contact Centers, Gaming, Hospitality (1): PolyAI
- Customer service (1): Forethought
- Customer service, Retail, Education (1): ElevenLabs
- Ecommerce (1): Amazon
- Enterprise AI solutions (1): Kore.ai
- Enterprise customer service, Retail, Security (1): Rime
- Enterprise Resource Planning (1): Workday
- Enterprise Software (1): Sourcegraph
- Enterprise workflows (1): Moveworks
- Healthcare (4): Ambience Healthcare, Hippocratic AI, Infinitus AI, Suki AI
- Healthcare, Finance, Hospitality, Insurance, Retail, Home Services, Logistics, Debt Collection, Telecommunications (1): Retell AI
- IT Service Management (1): ServiceNow
- Multi-industry (1): Sierra
- Procurement (1): Candex
- Productivity Software (1): Microsoft
- Sales communication (1): Lavender AI
- Sales engagement (1): Regie.ai
- Sales infrastructure (1): Apollo
- Software Development (6): Codeium, Cognition Labs, Cursor, GitHub, Replit, Tabnine
- Supply Chain (1): Inspectorio
- Telecommunications (1): Vapi

Catalog of Companies

Each entry includes name, website, product, description, agent type, vertical, HQ, notes, and source subagent.

Aisera

- Website: <https://aisera.com>
- Product: Conversational AI
- Description: Streamlining call center automation with IVR and tailored workflows for customer interaction.
- Agent Type: Conversational IVR and multi-functional AI agents
- Vertical/Industry: Contact center automation
- Headquarters: Santa Clara, CA, USA
- Notes: Aisera offers a comprehensive suite of AI agents designed to improve productivity and customer satisfaction.
- Source Subagent: C

Amazon

- Website: <https://www.aboutamazon.com>
- Product: Seller Assistant
- Description: Agentic AI-powered partner for ecommerce operations
- Agent Type: AI agent for operations
- Vertical/Industry: Ecommerce
- Headquarters: Seattle, WA, United States
- Notes: Focuses on automation of seller tasks and business growth.
- Source Subagent: H

Ambience Healthcare

- Website: <https://www.ambiencehealthcare.com/>
- Product: Ambient AI Platform
- Description: End-to-end platform for documentation, coding, and clinical workflow support.
- Agent Type: AI platform

- Vertical/Industry: Healthcare
- Headquarters: San Francisco, CA, United States
- Notes: Provides solutions across ambulatory, EDs, and inpatient specialties.
- Source Subagent: F

Apollo

- Website: <https://dev.to/alifar/building-an-ai-sales-infrastructure-with-claude-n8n-and-apollo-4jih>
- Product: AI-driven sales engine
- Description: An automated, AI-driven sales engine using Claude + n8n + Apollo.
- Agent Type: Sales
- Vertical/Industry: Sales infrastructure
- Headquarters: San Francisco, CA, USA
- Notes: Focus on creating automated workflows for sales operations.
- Source Subagent: D

Automation Anywhere

- Website: <https://www.automationanywhere.com>
- Product: Robotic Process Automation
- Description: Automation Anywhere empowers businesses to automate complex processes and maintains a central hub in Silicon Valley.
- Agent Type: RPA
- Vertical/Industry: Automation
- Headquarters: San Jose, CA, United States
- Notes: Incorporates AI through its strategic office locations.
- Source Subagent: E

Candex

- Website: <https://www.f6s.com/company/candex>
- Product: Procurement platform
- Description: Automates payment workflows for small suppliers
- Agent Type: AI procurement agents
- Vertical/Industry: Procurement
- Headquarters: New York City, NY, United States
- Notes: Streamlines e-procurement with core system integration.
- Source Subagent: H

Codeium

- Website: <https://windurf.com/>
- Product: Codeium AI Assistant
- Description: Accelerates development with AI-powered code suggestions.
- Agent Type: Software Engineering Agent
- Vertical/Industry: Software Development
- Headquarters: Mountain View, CA, US
- Notes: Offers free and premium plans.
- Source Subagent: B

Cognition Labs

- Website: <https://www.swyx.io/cognition>
- Product: Devin AI software engineer
- Description: Makers of the Devin AI software engineer and Windsurf agentic IDE.
- Agent Type: Software Engineering Agent
- Vertical/Industry: Software Development
- Headquarters: Unknown, US
- Notes: Acquired Windsurf; aims to dominate in agentic coding.
- Source Subagent: B

Cresta

- Website: <https://cresta.com>

- Product: Contact center AI platform
- Description: Augments human agents with AI for voice and chat, integrating insights and management tools.
- Agent Type: AI-augmented human agent assistance
- Vertical/Industry: Contact centers
- Headquarters: Sunnyvale, CA, USA
- Notes: Cresta's AI provides comprehensive visibility and efficiency improvements across communication channels.
- Source Subagent: C

Cursor

- Website: <https://cursor.com>
- Product: Cursor Agent
- Description: AI-powered IDE for efficient coding.
- Agent Type: Software Engineering Agent
- Vertical/Industry: Software Development
- Headquarters: Unknown, US
- Notes: Features GPT-5 for enhanced productivity.
- Source Subagent: B

ElevenLabs

- Website: <https://elevenlabs.io/>
- Product: Agents Platform
- Description: A platform for deploying customized conversational voice agents.
- Agent Type: Voice Agents
- Vertical/Industry: Customer service, Retail, Education
- Headquarters: Unknown, USA
- Notes: Offers a range of pre-configured voices, stability, and speed settings.
- Source Subagent: G

Forethought

- Website: <https://forethought.ai>
- Product: AI Agent Platform
- Description: Platform deploying enterprise-ready AI agents for customer support, handling up to 90% of inquiries.
- Agent Type: Customer service chatbots and system agents
- Vertical/Industry: Customer service
- Headquarters: San Francisco, CA, USA
- Notes: Forethought's platform supports multi-agent systems that aid in reducing costs and speeding up resolutions.
- Source Subagent: C

GitHub

- Website: <https://github.com>
- Product: GitHub Copilot
- Description: AI-powered code completion tool assisting developers in writing and reviewing code.
- Agent Type: Programming
- Vertical/Industry: Software Development
- Headquarters: San Francisco, CA, United States
- Notes: Used by 90% of Fortune 100 companies, co-pilot for enhanced development productivity.
- Source Subagent: A

Hippocratic AI

- Website: <https://www.hippocraticai.com/>
- Product: Generative AI for Healthcare
- Description: Safety-focused generative AI providing solutions across healthcare verticals.
- Agent Type: AI agent
- Vertical/Industry: Healthcare
- Headquarters: Unspecified, United States
- Notes: Recognized as a leader in generative AI for healthcare.
- Source Subagent: F

IBM

- Website: <https://www.ibm.com>
- Product: watsonx Orchestrate
- Description: IBM watsonx Orchestrate helps build, deploy and manage powerful AI assistants and agents that automate workflows with generative AI.
- Agent Type: AI agents
- Vertical/Industry: AI and Digital Transformation
- Headquarters: Armonk, NY, United States
- Notes: Provides a single solution to orchestrate AI agents across businesses.
- Source Subagent: E

Infinitus AI

- Website: <https://www.infinitus.ai/>
- Product: Voice AI platform
- Description: AI automates clinical and administrative healthcare calls.
- Agent Type: Voice AI
- Vertical/Industry: Healthcare
- Headquarters: Unspecified, United States
- Notes: Provides solutions to pharmaceutical companies, specialty pharmacies, and health systems.
- Source Subagent: F

Inspectorio

- Website: <https://inspectorio.com>
- Product: Paramo
- Description: Integrated AI ecosystem for supply chain management
- Agent Type: Autonomous agents for supply chain
- Vertical/Industry: Supply Chain
- Headquarters: Minneapolis, MN, United States
- Notes: Focuses on quality control and risk management.
- Source Subagent: H

Kore.ai

- Website: <https://kore.ai>
- Product: AI Agent Platform
- Description: Platform simplifies enterprise processes with advanced generative AI and multi-agent orchestration.
- Agent Type: Conversational AI and business process automation
- Vertical/Industry: Enterprise AI solutions
- Headquarters: Orlando, FL, USA
- Notes: Kore.ai offers a diverse set of tools enabling seamless integration with client infrastructures.
- Source Subagent: C

Lavender AI

- Website: <https://reply.io/blog/lavender-ai-review/>
- Product: AI-powered sales agents
- Description: AI email assistants that generate effective and personalized emails and offer additional sales features to become AI-powered sales agents.
- Agent Type: Sales
- Vertical/Industry: Sales communication
- Headquarters: Austin, TX, USA
- Notes: Known for AI SDRs specialised in scalable sales email outreach.
- Source Subagent: D

Microsoft

- Website: <https://microsoft.com>
- Product: Microsoft 365 Copilot
- Description: Collaboration-focused agents for enabling human-agent teams within Microsoft 365.
- Agent Type: Collaboration
- Vertical/Industry: Productivity Software
- Headquarters: Redmond, WA, United States

- Notes: Integrates across Teams, SharePoint, and Viva for enhancing work efficiency.
- Source Subagent: A

Moveworks

- Website: <https://moveworks.com>
- Product: Agentic AI Platform
- Description: AI assistants for workforce productivity, offering automation and conversational tools.
- Agent Type: Enterprise AI assistants
- Vertical/Industry: Enterprise workflows
- Headquarters: Mountain View, CA, USA
- Notes: Moveworks' platform enhances tech stack with low-code solutions and enterprise-ready AI integrations.
- Source Subagent: C

Nabla

- Website: <https://www.nabla.bio/>
- Product: Generative AI drug design platform
- Description: Designs antibodies with atomic precision using AI.
- Agent Type: AI agent
- Vertical/Industry: Biotech
- Headquarters: Cambridge, MA, United States
- Notes: Developing AI solutions for challenging disease targets.
- Source Subagent: F

OpenAI

- Website: <https://openai.com>
- Product: ChatGPT agent
- Description: A general-purpose AI agent capable of completing various computer-based tasks.
- Agent Type: General-purpose
- Vertical/Industry: Artificial Intelligence
- Headquarters: San Francisco, CA, United States
- Notes: ChatGPT agent combines capabilities from previous tools and uses API access.
- Source Subagent: A

PolyAI

- Website: <https://poly.ai/>
- Product: Agent Studio
- Description: Omnichannel platform for conversational AI with agentic AI roles for contact center optimization.
- Agent Type: Customer-facing and agentic AI roles
- Vertical/Industry: Contact Centers, Gaming, Hospitality
- Headquarters: Unknown, USA
- Notes: Features QA, Analyst, and Builder agents for improving CX.
- Source Subagent: G

Regie.ai

- Website: <https://www.regie.ai/>
- Product: RegieOne
- Description: An all-in-one prospecting platform where predictable rep outreach meets AI Agents.
- Agent Type: Sales
- Vertical/Industry: Sales engagement
- Headquarters: San Francisco, CA, USA
- Notes: RegieOne integrates AI Agents and human reps in a single workflow.
- Source Subagent: D

Replit

- Website: <https://blog.replit.com/>
- Product: Agent 3
- Description: Most advanced, autonomous agent capable of app testing and generating automations.

- Agent Type: Software Engineering Agent
- Vertical/Industry: Software Development
- Headquarters: Unknown, US
- Notes: Designed for streamlining workflows.
- Source Subagent: B

Retell AI

- Website: <https://www.retellai.com/>
- Product: AI Voice Agent Platform
- Description: A conversational AI platform designed for creating and deploying AI phone systems.
- Agent Type: Voice Agents
- Vertical/Industry: Healthcare, Finance, Hospitality, Insurance, Retail, Home Services, Logistics, Debt Collection, Telecommunications
- Headquarters: Unknown, USA
- Notes: Offers extensive integrations and multilingual support.
- Source Subagent: G

Rime

- Website: <https://www.rime.ai/>
- Product: Voice AI Models
- Description: Specializes in creating authentic-sounding AI voices for customer experience.
- Agent Type: Voice Models for IVR and agents
- Vertical/Industry: Enterprise customer service, Retail, Security
- Headquarters: Unknown, USA
- Notes: Highly realistic voices designed for high-volume, business applications.
- Source Subagent: G

ServiceNow

- Website: <https://www.servicenow.com>
- Product: Now Assist
- Description: ServiceNow's Now Assist is a suite of AI-driven solutions to deliver intelligent work and employee experiences with generative AI.
- Agent Type: AI agents
- Vertical/Industry: IT Service Management
- Headquarters: Santa Clara, CA, United States
- Notes: Offers AI-driven solutions and workflows for productivity.
- Source Subagent: E

Sierra

- Website: <https://sierra.ai>
- Product: Voice Sims
- Description: Voice Sims helps simulate and test AI agents in real-world scenarios for voice testing before deployment.
- Agent Type: Customer support voice agents
- Vertical/Industry: Multi-industry
- Headquarters: San Francisco, CA, USA
- Notes: Sierra's offering is a part of their Agent Studio, focusing on enhancing voice interaction with users.
- Source Subagent: C

Sourcegraph

- Website: <https://sourcegraph.com>
- Product: Cody
- Description: AI assistant for writing, understanding, and fixing code.
- Agent Type: Software Engineering Agent
- Vertical/Industry: Enterprise Software
- Headquarters: San Francisco, CA, US
- Notes: Focuses on large-scale, complex projects.
- Source Subagent: B

Suki AI

- Website: <https://www.suki.ai/>
- Product: AI Assistant for Documentation
- Description: Offers ambient documentation, coding, and EHR integrations.
- Agent Type: AI Assistant
- Vertical/Industry: Healthcare
- Headquarters: Redwood City, CA, United States
- Notes: Provides significant ROI by reducing clinician documentation time.
- Source Subagent: F

Tabnine

- Website: <https://www.tabnine.com>
- Product: Tabnine Chat
- Description: Enterprise-grade, code-centric chat application.
- Agent Type: Software Engineering Agent
- Vertical/Industry: Software Development
- Headquarters: Unknown, US
- Notes: Offers personalized recommendations.
- Source Subagent: B

UiPath

- Website: <https://www.uipath.com>
- Product: UiPath Platform
- Description: UiPath is a global leader in agentic automation, empowering enterprises to harness the full potential of AI agents to autonomously execute and optimize complex business processes.
- Agent Type: RPA and AI agents
- Vertical/Industry: Automation and Process Optimization
- Headquarters: New York, NY, United States
- Notes: UiPath continues to innovate in agentic automation solutions.
- Source Subagent: E

Vapi

- Website: <https://vapi.ai/>
- Product: Voice Assistants API
- Description: Provides API-based voice assistants with a variety of tools including call transfer and SMS.
- Agent Type: Voice Assistants
- Vertical/Industry: Telecommunications
- Headquarters: Unknown, USA
- Notes: Emphasizes customizable integrations with existing APIs.
- Source Subagent: G

Workday

- Website: <https://www.workday.com>
- Product: Workday Agent System of Record
- Description: Workday unifies HR and Finance on one intelligent platform with AI at the core, including the management of AI agents.
- Agent Type: AI agents
- Vertical/Industry: Enterprise Resource Planning
- Headquarters: Pleasanton, CA, United States
- Notes: Collaboration with Microsoft for secured AI agent management.
- Source Subagent: E

Limitations

- Although subagents logged used searches, we do not include citations in this report by design.
- Company offerings evolve rapidly; details reflect 2025 information available at research time.
- Some companies may span multiple categories; we list a primary agent type and vertical per the data returned.
